Dear Richard, Kurt and Matt,

Earlier this week, Acting Regional Administrator Deborah Jordan signed the EPA's proposed rule to approve the Imperial County Moderate area plan for the 2008 ozone NAAQS and to determine that Imperial County would have attained the standards by the July 20, 2018 attainment date but for international emissions.

Thank you for your collective efforts to develop the Imperial Ozone Plan, the RFP revision, as part of the 2018 SIP Update, and the demonstrations of attainment but for emissions from Mexico. We anticipate publication in the next couple weeks, at which time the proposed rule and docket will become available at <https://www.regulations.gov> under docket ID EPA-R9-OAR-2018-0562. If you have any questions, please call me at 415-972-3183, or have your staff call Rory Mays at 415-972-3227.

Sincerely,  
Elizabeth
